

**Mantis
Battle⁸**

WHITEPAPER

INTRODUCTION

MantisBattle is born from the vision of creating a one-of-a-kind entertainment experience within the crypto universe. Our mission is to immerse viewers in mortal battles between mantises, presented as live shows. These elegant and historic insects, lethal in their essence, headline a show like no other, bridging the natural animal world with the digital realm of the blockchain.

*"Fast as the wind, slow as
a forest, attack and
devastate like fire, be
immovable as a
mountain, mysterious as
yin, swift as thunder.
Trust in the Mantis."*

ELON & ZUCKERBERG

Elon, with a green mantle, embodies the forefront and innovation. The first to challenge the ring, he represents a bold and futuristic vision of the world. Zuckerberg, with his brown mantle, symbolizes stability and tradition, a constant search for connection and integration. This color contrast reflects the personalities of two emblematic figures of our era: Elon Musk and Mark Zuckerberg.

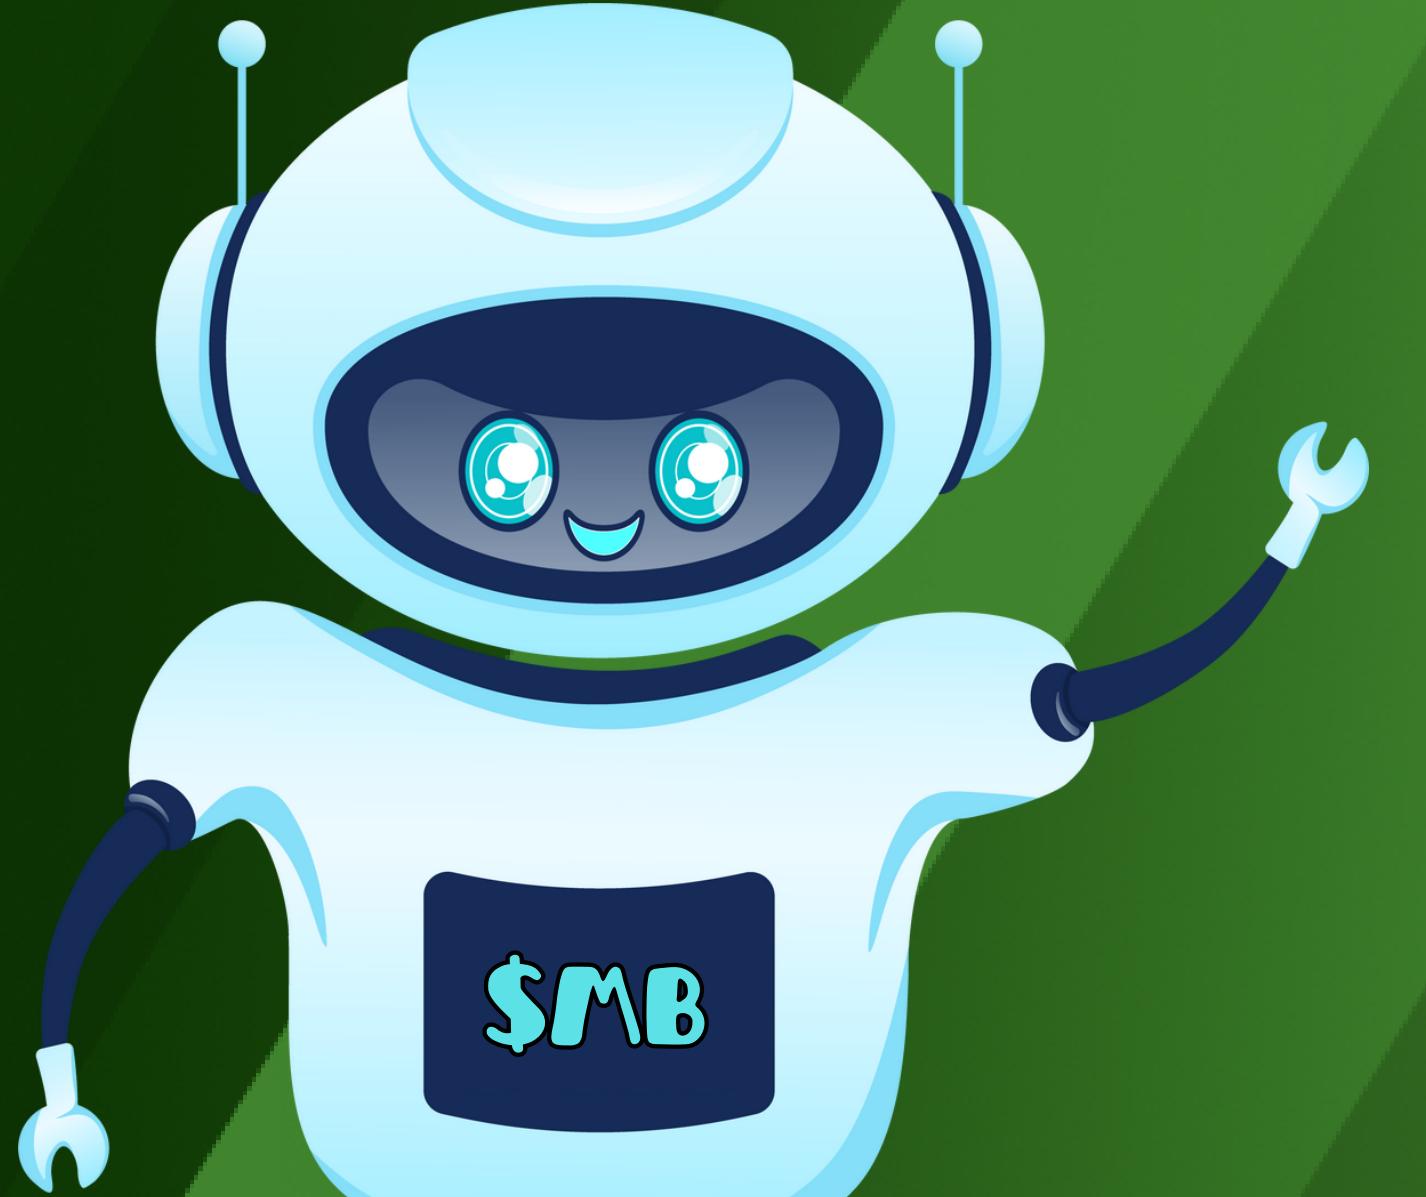

THE RING

The MantisBattle ring isn't just an arena, but a theater for epic clashes. "In the middle of difficulty lies opportunity." - Einstein. In this ring, the opportunities for glory are endless.

BETTiNG BOT

Dive into the betting fever! Bet in ETH on your favorite fighters, with fixed odds that fuel the adrenaline of the game. And that's not all: with a 5% fee dedicated to our Marketing Wallet, you're also contributing to the continuous growth and promotion of MantisBattle.
